

## BLACK KITE

### RANSOMWARE SUSCEPTIBILITY INDEX (RSI)

*Ransomware has quickly become the largest cyber threat to today's organizations, resulting in significant losses across-the-board. Companies have been left blind to which areas pose the greatest risk... until now.*

#### COMBAT RANSOMWARE WITH BLACK KITE'S RSI

**Understand which vendors are most prone to ransomware** with a tool that calculates event susceptibility within minutes.

**Develop an effective course of action for remediation** by cross correlating findings with Black Kite's Cyber Risk Assessment.

**Avoid production, reputation and financial losses** by using reliable data to develop more informed policies.

#### BLACK KITE'S RSI IN ACTION

*Using data and machine learning, Black Kite's RSI discovers the likelihood that an organization will experience a ransomware attack.*

DATA BREACH INDEX (DBI): 0.016
