

QUANTIFY CYBER RISK WITH OPEN FAIR™

BLACK KITE IS THE ONLY CYBER RISK RATINGS SERVICE USING OPEN FAIR™ TO CALCULATE THE PROBABLE FINANCIAL IMPACT IF A VENDOR, SUPPLIER OR THIRD PARTY EXPERIENCES A BREACH.

MEASURE CYBER RISK IN DOLLARS AND CENTS

Money is a universal business language, which is why we use a dollar figure to communicate risk across the organization.

TRUST WHERE YOUR DATA COMES FROM

Get everyone on board with your TPRM program by sharing reliable data from the only cyber ratings tool that's 100% transparent about its standards-based methodology.

ELEVATE YOUR THIRD-PARTY RISK MANAGEMENT PROGRAM

Cost-effectively achieve and maintain an acceptable level of loss exposure through FAIR™ assessments that scale.

WHAT IS OPEN FAIR™?

Factor Analysis of Risk (FAIR) is the only international standard Value-at-Risk model for information security and operational risk.
